Mechanical Engineer – Limerick

Mechanical Engineer

Oradeo Recruitment is presently recruiting on behalf of one of our clients who are an international market leading M&E contractor for a Mechanical Engineer to be based in Limerick.

This opportunity will come with an excellent remuneration package and clear scope for career development.

Duties & Responsibilities

- Support the Project Manager
- Provide Technical Support to the construction team.
- Prepare AutoCad drawings for construction and to coordinate between contractors to ensure services fit.
- Maintain a set of redline drawings showing progress & changes.
- Prepare as- built drawings for inclusion in the Operations & Maintenance manual.
- Monitor and expedite equipment deliveries.
- Prepare & keep up to date the delivery schedule to control deliveries.
- Seek to clarify queries with the design team through the request for information (RFI) system.
- Manage sub-contractors including the commissioning progress reports.
- Prepare method statements and risk assessments (with the construction team) for production activities.
- Prepare test packs for recording the completion of systems.
- Carry out Quality Control through inspections and snagging.
- Carry out document control, recording & transmitting information &

drawings using the document control system.
- Compile an Operations & Maintenance manual for handover to the client.
- Prepare valuations for submittal to the client on a monthly basis
- Carry out measures of work completed and prepare productivity (S/E)reports

Candidate Profile

- A degree in Building Services or Mechanical Engineering or equivalent.
- 1– 3 years previous experience mechanical / building construction.
- Experience in data centre, pharmaceutical or industrial sectors would be advantageous.
- AutoCad experience.
- Experience using 3D AutoCad is advantageous but not essential.

This is an excellent opportunity for a self-starter, highly motivated individual, within a dynamic, ambitious and market leading company. An excellent remuneration package will be available to the right candidate. Suitable candidates should forward across an updated CV in confidence for the attention of Tara Ryan.
