### [Site Engineer | Dublin](#)

#### **Site Engineer | Tier 1 Main Contractor | Dublin**

- **One of Ireland's Top 5 Tier 1 Main Contractors with significant annual turnover.**
- **Excellent career progression opportunities along with a generous package.**
- **Exposure to large, interesting and prestigious projects.**

**Oradeo Recruitment** is presently seeking interest for an experienced **Site Engineer** ideally with solid main contractor / specialist subcontractor experience to join one of Ireland's leading Tier 1 Main Contractors permanently based in Dublin. As a **Site Engineer** you will gain exposure to prestigious projects across the Dublin area on large building/construction sites.

As a member of the Engineering & Management team, you the **Site Engineer** will have a number of responsibilities that will be vital in the contribution to the overall delivery of projects including offering advice in the planning, coordination and supervision of technical aspects of construction projects, management of various workers crews/ subcontractors and preparing reports etc. Become a **Site Engineer** with a building contractor with an outstanding reputation in the market on large scale construction projects. This position would come with an excellent remuneration package and a clear path for career growth and development towards Senior Engineer, Project Management and

beyond.

### **Site Engineer Responsibilities:**

- The **Site Engineer** will be tasked with Setting out, levelling and surveying the site.
- Checking plans, drawings and quantities for accuracy of calculations.
- Ensuring that all materials used and work performed are as per specifications.
- Managing, monitoring and interpreting the contract design documents supplied by the client or architect
- Liaising with any consultants, subcontractors, supervisors, planners, quantity surveyors and the general workforce involved in the project
- Liaising with clients and their representatives (architects, engineers and surveyors), including attending regular meetings to keep them informed of progress.
- Planning the work and efficiently organizing the plant and site facilities in order to meet agreed deadlines.
- Overseeing quality control and health and safety matters on site.
- Resolving any unexpected technical difficulties and other problems that may arise.

### **Necessary skills and requirements:**

- 3rd level qualification in Construction Management/Engineering
- Minimum of 2-3 years' experience in Building Projects with a main contractor acting as a **Site Engineer** within Ireland or the UK
- Strong setting out experience
- Strong operational skills and an attention to detail
- Familiar with MS Office applications such as Word, PowerPoint, Excel and Outlook.
- Strong and effective communication and interpersonal skills.
- Analytical thinker with demonstrated problem solving skills
- Ability to work in a team or on own initiative
- Ability to perform multiple tasks at a high level of quality
- Ability to work well under pressure and within a strict deadline environment
