## Architectural Technician | Dublin

- **Market leading specialist construction company with significant annual turnover**
- **Excellent package with a clear scope for career development**
- **Opportunity to be involved in a number of prestigious, large and technically challenging projects across multiple facets of the industry**

**Oradeo Recruitment** is presently seeking interest for an **Architectural Technician** on behalf of one of our clients who is a market leading specialist engineering construction company. The company are specialising in the design, manufacture and supply of specialist products to the UK & Irish construction markets. The company is headquartered in the Dublin area, with regional offices in the UK. This new role is for an Architectural technician with 5+ years' experience in the construction industry with a good working knowledge of the building regulations and construction details.

**Oradeo Recruitment's** client has an award winning reputation, they are a "best in class" Company, who collaborate with some of the most prestigious Clients, Architects, Consultant Engineers, Professional practices and Contractors in Ireland and the UK.

## Architectural Technician Responsibilities:

- Partnering with the Engineers and modellers you will produce, within a 3D model environment, a full range of façade details, including but not limited to insulation, firestopping, seals and interface with adjoining trades.

- Liaise with external design team members on a regular basis.
- Produce accurate drawings and information for issue.
- Attend the site as required to confirm drawings / model accuracy.
- Ability to prioritise workload.
- Carry out other duties as directed by your manager.
- Produce accurate, consistent, and professional records, reports, and general information.
- Support the completion of the associated external facade works in accordance with the program.
- Ensure work is carried out to the highest of quality and safety standards.
- Manage buildability issues related to the external envelope.

### **Necessary Skills and Requirements:**

- Relevant Architectural, Engineering or Construction Qualification.
- Minimum 5 Years' Experience (Facade Experience preferred)
- Experience using 3D BIM Environment via workflow
- Strong Detailing / modelling experience
- Technical and Practical Knowledge of the Building Industry
- Advance Knowledge of Ms Office, Excel, PowerPoint and Industry Specific Software
- Excellent written and Oral Presentation Skill
- Ability to Work on Own Initiative
- Self-motivated and Hard Working
