BIM Coordinator | Dublin

BIM Coordinator | Dublin

- Opportunity to join a leading Tier 1 Contractor operating across Ireland, the UK, and Northern Europe
- Competitive salary, pension, healthcare, and life assurance
- Excellent career progression opportunities within a high-performing digital construction team

Oradeo Recruitment is currently seeking a **BIM Coordinator** to join one of Ireland's leading construction companies, renowned for delivering complex and high-profile projects across **Data Centres, Life Sciences, Aviation, High-Value Manufacturing, and Critical Logistics** sectors.

This is an exciting opportunity for a talented BIM professional to work on major projects with blue-chip clients, collaborating closely with commercial teams, design teams, contracts managers, and project directors.

Role Overview

Reporting directly to the **BIM Lead**, the successful candidate will play a key role in developing, implementing, and managing BIM processes and deliverables to ensure the highest standards of quality, coordination, and efficiency are achieved across all project phases.

Duties & Responsibilities

- Work closely with the BIM Lead to ensure workflows and project deliverables meet required standards and client expectations.
- Coordinate and develop accurate and detailed **BIM Execution Plans** (**BEPs**) to define project-specific standards and quality requirements.
- Produce and maintain detailed 3D BIM models in accordance with project

- specifications.
- Ensure models align with the BIM Execution Plan and established workflows.
- Collaborate internally and externally with design and project teams across multiple disciplines.
- Create and manage BIM content, including the setup of Revit families and templates.
- Develop construction drawings and extract key project data.
- Administer and maintain the **Common Data Environment (CDE)** in compliance with ISO standards.
- Enforce BEPs, standard methods, and procedures within the CDE.
- Perform model validation and **clash detection** using Navisworks.
- Monitor and review BIM Execution Plan implementation throughout the project lifecycle.
- Liaise with subcontractors and design teams to agree on objectives and coordination standards.
- Support continuous improvement of BIM knowledge and digital workflows across the organisation.

Skills & Experience Required

- A degree in Building Information Modelling, Engineering, or Architecture (Level 7/8) preferred.
- Minimum 2 years' experience in a BIM-related role (experience with a main contractor in build/fit-out is advantageous).
- Proficiency in **Revit** and **Navisworks**; understanding of **Dynamo** desirable but not essential.
- Strong knowledge of **Revit Architecture**, with an understanding of MEP and structural elements.
- Familiarity with ISO 19650 standards and BIM data management tools.
- Excellent IT skills, including Microsoft Office Suite.
- Strong understanding of construction sequencing and coordination.
- Passion for innovation and digital transformation within the construction industry.
- Excellent communication skills and the ability to work effectively under pressure.

Career Development

Our client offers a highly structured **career progression programme**, including continuous professional development and mentoring. High-performing individuals can progress from **BIM Coordinator** to **BIM Lead**, and ultimately to **BIM Manager**, with ongoing support for professional growth and certification.

Remuneration

A competitive salary and benefits package will be offered, including pension, healthcare, and life assurance.
