

Construction Warehouse Manager/Storeperson | Market Leading M&E Contractor | Mons, Belgium

Construction Warehouse Manager/Storeperson | Market Leading M&E Contractor | Mons, Belgium

—

- Prestigious M&E projects including industrial, data centres, pharmaceutical, and advanced technology sectors
- Large market-leading M&E Contractor turning over €200+ million
- Excellent package & career development prospects

Oradeo's client is an international, multi-disciplined projects company and we are currently seeking a Construction Warehouse Manager / Storeperson to support project in Mons, Belgium. This is an opportunity to join a market leading organisation in the data centre and life sciences sector.

Duties & Responsibilities:

- Prepare, monitor, and update Material Tracking Schedules and live-stock logs
- Work closely with Planning Engineers to ensure materials are available for construction as per programme
- Plan with Procurement to minimise inventory and manage direct orders, consignments, and corporate agreements
- Liaise with engineers to ensure material requirements and delivery dates align with project needs
- Expedite and coordinate prompt delivery with the site procurement team and suppliers
- Manage stores personnel, stock protection, and material movement from stores to site
- Conduct physical inventory control, verify material usage, and inspect

stock for defects or damage

- Propose and dispose of surplus or scrap material following company procedures
- Track and trace goods in transit to site and maintain accurate records and reports
- Pack and unpack items for storage, prepare inventory records, and provide monthly material reports to management
- Purchase new stock as required and update the computer system
- Manage inventory systems and data scope bookings to ensure accurate project reporting
- Ensure all materials comply with specifications and project requirements
- Act as on-site expeditor, supporting construction teams to meet project timelines
- Perform ad hoc duties as required
- IT savvy, with the ability to manage material systems and digital reporting tools

Necessary Requirements:

- Minimum 3–5 years' experience in materials management, warehouse, or stores roles within **construction, M&E, or engineering sectors**
- Knowledge of material management, inventory control, and stock tracking processes in **construction, M&E, or engineering sectors**
- 3rd level qualification and/or relevant experience
- Computer literate; SAP or other purchasing/software experience advantageous
- IT savvy, experienced in managing inventory systems and data scope bookings
- Excellent organisational, communication, and customer care skills
- Ability to work independently and as part of a team
- Proven ability to prioritise tasks and manage multiple responsibilities
- Teleporter driving ticket (for storeperson responsibilities)
- Fluent English, both written and verbal
