CSA Project Manager | Milan (EMC).

CSA Project Manager | Tier 1 Main Contractor | Milan

- **Top European Tier 1 Main Contractor with significant annual turnover.**
- **Excellent career progression opportunities along with a generous package.**
- **Exposure to large, interesting and prestigious projects.**

Oradeo Recruitment is presently seeking interest for an experienced **CSA Project Manager** ideally with solid main contractor / specialist subcontractor experience to join one of Europe's leading Tier 1 Main Contractors based in Leinster. As a **CSA Project Manager,** you will gain exposure to prestigious projects across Mainland Europe on large building/construction sites and initially will be involved in ensuring the delivery of CSA (Civil Structural & Architectural) packages ranging in value from €5-€7.5 million respectively based in Leinster.

Construction / CSA Project Manager Responsibilities:

- Liaising with key Stakeholders to deliver all aspects of assigned projects.

- Develop Project Execution strategies.
- Develop site logistics (demobilisation / mobilisation) plans.
- Develop and implement Project Schedules in accordance with key milestones, co-ordinating with all trades and CSA works.
- Develop and implement Project costs and budget plans.
- Review, sign-off and implement Project Quality plans and procedures.
- Review, sign-off and implement Project EHS Management plan.
- Management and motivation of Project construction and Engineering teams.
- Develop and agree submission and approvals process with client / design consultants.
- Develop and monitor material procurement schedules in accordance with schedule requirements.
- Select and appoint Project Sub-contractors and Supply chain in conjunction with Project teams and specifications
- Chair weekly internal team, supplier and sub-contractor meetings to co-ordinate and ensure project performance.
- Oversee Project cost / revenue control and report performance and issue weekly reports.
- Attendance at client / project management meetings.
- Liaison with Sub-contractor and supplier senior management at steering group level to avoid project roadblocks.
- Ongoing liaison with Client Design teams and building contractor teams to ensure project performance.
- Develop and implement test and commissioning procedures

Necessary skills and requirements:

- Ideally 8+ years' experience
- Ability to demonstrate building strong working relationships & stakeholder
- management
- Experience of working on data centre/pharmaceutical projects would be advantageous
- Excellent Analytical and problem-solving skills.
- High level of accuracy and attention to detail.
- Good oral & written communication skills
