## **CSA (Civil, Structural & Architectural) Supervisor | Netherlands**

- Large international market leading contractor
- Excellent package and career development prospects
- Large prestigious projects

Oradeo recruitment is currently recruiting for a **CSA (Civil, Structural & Architectural) Supervisor** to work with a market leading contractor in Netherlands on a permanent basis working on a large and prestigious Data Centre project.

### **Duties and Responsibilities:**

- Management of Site Safety in conjunction with the Safety Advisor. This will include the setup, management of and closing out of the safety file as part of the Management team.
- Management of Site QA in conjunction with the CSA Package manager including set up, management and close out of file.
- Familiarity with and management of Project Schedule in conjunction with other trades and Package Leads.
- Assist with the management of all costs associated with your package including:
  - CSA Team

- Sub-contractors
- Material deliveries and goods receipting.
- Plant and Equipment
- Variations
- Management of all day to day on site operations for the CSA packages.
- Management of sub-contractor activities including tracking progress against schedule and manpower levels. Ensure Attend and contribute to a weekly minutes meeting with sub-contractor.
- Management of the “In Progress” snagging system ensuring that you return weekly punch lists where applicable.
- Issue direct labour hours and sub-contractor hours to time administrator for tracking centrally.
- Attendance at Site Meetings, Internal Project Reviews, Engineering Reviews, Planning and Co-ordination Meetings and Handover Meetings where required.
- Close out of all project items including O & M Manuals, Punch List, Safety File, QA File – all with the support of the CSA package manager
- Implement a weekly look ahead ensuring co-ordination with other trades.
- Issue internal weekly progress report, Supervisors report. This will highlight progress percentage complete based on WBS codes and any concerns. It should also highlight any risk elements within the control of the employer or Sub-contractors, e.g.: late deliveries.
- Schedule material deliveries to correspond with the project schedule. Track deliveries.
- Maintain a weekly project photographic diary
- Any other duties associated with the role.

### **Necessary Requirements:**

- Ideally 9+ years’ experience
- Ability to demonstrate building strong working relationships and stakeholder management
- Excellent Analytical and problem-solving skills
- **Data Centre experience essential**
- High level of accuracy and attention to detail
- Good oral & written communication skills
