## Design Engineer | West of Ireland

- **Leading Company in the West of Ireland**
- **Excellent career progression opportunities along with a generous package**

**Oradeo Recruitment** is presently seeking interest for a **Design Engineer** in our clients Division located in Sligo. This position comes with an excellent remuneration package and a clear path for career growth.

### **Duties and Responsibilities:**

- Design and development of new medical products.
- Product/process evaluation and associated record keeping.
- Selection of raw materials, components and suppliers.
- Fabrication of prototypes, and test products.
- Communication with customers/Project Managers regarding project progression.
- Other such duties as may be assigned from time to time by their Manager.

### **Minimum requirements related to the position:**

- Bachelor's Degree in Mechanical Engineering, Biomedical Engineering or similar related discipline is essential.

- 5 years plus experience in similar role is essential. Experience of working in a medical device environment would be an advantage though is not essential.
- Ability to take ownership of tasks and bring to successful conclusions.
- Knowledge of a high-end CAD System, Ideally Solidworks.
- Hands on approach to designing and fabrication
- Ability to work to strict international regulations regarding medical devices
