- Tier 1 Main Contractor with Strong Pipeline
- High-Profile Building & Mission-Critical Projects
- Excellent Package & Senior Leadership Role

Oradeo Recruitment is currently seeking a **Design Manager** for a prestigious Tier 1 Main Contractor based in **Dublin**. This is a pivotal role in the successful planning and coordination of complex building projects across various sectors including data centres, life sciences, and commercial developments.

### Key Responsibilities:

- Lead and manage the design process from pre-construction through to project completion
- Coordinate design teams, consultants, subcontractors, and internal departments to ensure fully integrated design solutions

- Oversee the production and review of coordinated drawings and ensure alignment with project requirements, planning regulations, and industry standards
- Proactively identify and resolve design challenges while driving value engineering and buildability
- Participate in client and design meetings, maintaining clear and effective communication among all stakeholders
- Monitor design progress against programme milestones, ensuring timely delivery of design information
- Support the tender and bid process with technical and design input as required
- Promote a collaborative design culture focused on innovation, compliance, and performance

#### **Requirements:**

- Degree qualified in Architecture, Engineering, Construction Management, or related discipline
- Minimum of 7 years' experience in a design management role, ideally within a Tier 1 contractor environment
- Strong technical knowledge of architectural, structural, and MEP design coordination
- Proven track record delivering large-scale projects in sectors such as data centres, life sciences, or commercial
- Proficient in design tools such as BIM, Revit, and AutoCAD
- Excellent organizational, communication, and stakeholder management skills
- Based in or willing to relocate to Dublin
