

Design Manager | Leading Contractor | Dublin

Design Manager | Leading Contractor | Dublin

—

- Key role overseeing design delivery on high-profile construction projects
- Join a well-established contractor with a strong pipeline of work in Dublin
- Excellent package, benefits, and long-term career progression opportunities

Oradeo Recruitment are seeking an experienced Design Manager to join a leading contractor in Dublin. This role involves managing and coordinating the full design process from pre-construction through to project completion, ensuring all design information is delivered on time, fully compliant, and aligned with project objectives. This is an excellent opportunity to work on complex, high-quality developments while playing a pivotal role in mitigating design risk and driving successful project delivery.

Design Manager Responsibilities:

—

- Manage and coordinate the design process across all project phases, ensuring timely delivery of accurate and approved design information
- Review designs for buildability, compliance, coordination, and potential risks prior to construction
- Ensure all drawings and design documentation are issued and controlled in line with the project programme
- Maintain detailed design records, trackers, and document control systems throughout the lifecycle of the project
- Act as the main point of contact for clients on all design-related

- matters, ensuring clear communication and alignment
- Liaise with architects, engineers, consultants, subcontractors, and internal teams to ensure design integration and clarity
 - Identify and manage design-related risks, including coordination clashes and programme impacts
 - Ensure all design activities comply with health, safety, and welfare regulations, including construction safety legislation
 - Ensure compliance with building regulations, industry standards, and sustainability requirements
 - Lead design team meetings, workshops, and coordination sessions, providing clear direction and accountability
 - Prepare and present design reports, progress updates, and technical information to clients and senior management
 - Support and mentor junior team members where required

Necessary Skills & Requirements:

-
- Degree in Engineering, Architecture, Construction Management, or a related discipline
 - Significant experience in a Design Manager or Senior Design role within the construction industry
 - Strong knowledge of construction design processes, project delivery, and multidisciplinary coordination
 - Excellent communication, stakeholder management, and leadership skills
 - Proven ability to manage multiple design interfaces and deadlines effectively
 - Strong understanding of Irish building regulations, health & safety legislation, and sustainable construction practices
 - Detail-oriented with a structured and methodical approach to problem solving
 - Confident in leading meetings and presenting to clients and senior stakeholders
