Electrical Commissioning Manager| Europe

- One of Europe's Leading Main Contractors with Significant Annual Turnover
- Excellent package & career development prospects
- Prestigious projects including Industrial, Data Centre, Pharmaceutical, commercial etc.

Oradeo Recruitment is presently seeking interest for an experience **Electrical Commissioning Manager** to join an international market leading Main Contractor working on a number of large and prestigious projects (Pharmaceutical, Mission Critical, Industrial, Commercial etc.) within the country with opportunities to work across Europe if you would have an appetite for same.

Duties and Responsibilities:

- Identifying problems and shortcomings with existing systems
- Making improvements to and offering advice about operational procedures

- Prepare and submit technical submittals for the Madrix Switchgear and associated equipment
- Scheduling and coordinating work to tight deadlines
- Ensuring that equipment works to its specification
- Producing or assisting in the production of all test and commissioning documentation
- Investigating problems, diagnosing/repairing faults
- To liaise with Vendors and Designer regarding Switch gear, Busbar and SCADA/EMS
- Liaising with installation/project engineers
- Supervising engineering and technical staff
- Writing reports and documentation
- Providing technical support as well as contributing towards troubleshooting scenarios
- To coordinate and verify SAT and FAT activities associated with our supplied equipment
- To compile documentation from all stages, from purchasing of equipment through to testing, final commissioning, handover, and IST
- As an **Electrical Commissioning Manager**, you will ensuring the safe testing and commissioning of completed installations to achieve the necessary plant performance in accordance with project programme requirements
- Ensuring safe working conditions in addition to training maintenance and operative staff where appropriate

Necessary Requirements:

- 3rd level qualification in electrical engineering, Building Services Engineering or similar
- Minimum of 6 years' experience as a Commissioning Engineer/Commissioning Manager
- Experience as a Commissioning Engineer/Manager on hi-tech M&E projects e.g., Data centre, Pharma, Energy, Industry, Healthcare etc.
- Commercial Awareness
- Capability of walking down Electrical systems to ensure compliance with specification
- Experience developing technical submittals, completing technical reviews and assessments
- Knowledge of Health, Safety and Environmental systems and procedures – knowledge of the team, their strengths, and weaknesses
- The ability to multi-task and manage many priorities
