Electrical Engineer | Denmark

- Tier 1 Main Contractor with Strong Pipeline
- High-Profile Building & Mission-Critical Projects
- Excellent Package & Senior Leadership Role

Oradeo Recruitment is currently seeking an experienced **Electrical Engineer** to join a prestigious international contractor delivering a **cutting-edge data centre project in Denmark**. This is a key role within a high-performing team, with long-term prospects across mainland Europe.

Key Responsibilities

- Support the design, coordination, and delivery of all electrical systems on site
- Liaise with the design team, subcontractors, and client representatives to ensure seamless project execution

- Provide technical oversight of installation activities, ensuring adherence to specifications, safety, and quality standards
- Review technical submittals and shop drawings for accuracy and compliance
- Assist in procurement, planning, and progress reporting for electrical works
- Identify and resolve technical and coordination issues quickly and efficiently
- Ensure all documentation is completed in accordance with project and industry standards
- Support commissioning and handover phases, collaborating with QA/QC teams

Requirements

- Degree qualified in Electrical Engineering or a related discipline
- 3–5+ years' experience on large-scale construction projects (data centre, pharma, or industrial preferred)
- Strong knowledge of electrical systems including MV/LV, life safety systems, and power distribution
- Familiarity with industry standards and European electrical regulations
- Excellent communication and problem-solving skills
- Proficient in AutoCAD, Navisworks, or similar design and coordination tools
- EU passport or right to work in Denmark preferred

What's on Offer

- Competitive salary or day rate (depending on experience)

- Full expat package: Flights, accommodation, transport, and allowance
- Long-term European project pipeline with a Tier 1 contractor
- Supportive, team-oriented environment
- Opportunities for professional development and career progression

How to Apply

Apply directly through our website or send your CV in confidence to recruitment@oradeo.com
