Electrical & Instrumentation Supervisor | Denmark

- Tier 1 Main Contractor with Strong Pipeline
- High-Profile Building & Mission-Critical Projects
- Excellent Package & Senior Leadership Role

Oradeo Recruitment is currently seeking an experienced **Electrical & Instrumentation Supervisor** to join a leading international contractor on a major **data centre project in Denmark**. This is an exciting opportunity to work on a fast-paced, high-tech project with a globally recognised firm delivering world-class mission-critical facilities.

Key Responsibilities:

- Supervise and coordinate the on-site installation of electrical and instrumentation systems

- Ensure works are carried out according to the design, specifications, quality standards, and safety regulations
- Liaise with project management, engineering teams, and subcontractors to ensure timely delivery of project milestones
- Oversee daily site activities, workforce planning, and progress tracking
- Conduct inspections and testing of E&I systems to ensure compliance and functionality
- Implement and maintain health & safety procedures and promote a safety-first culture on site
- Monitor material and equipment usage, reporting discrepancies or requirements to procurement teams
- Attend site coordination meetings and provide regular updates on progress, issues, and resource requirements

Requirements:

- Trade or degree qualification in Electrical Engineering, Instrumentation, or a related discipline
- 5+ years' experience supervising E&I installations on large-scale industrial, pharma, or data centre projects
- Strong understanding of LV/MV systems, instrumentation, ATEX, and control systems
- Proven ability to lead teams and coordinate subcontractors on busy, multi-disciplinary sites
- Excellent communication and leadership skills
- EU passport or right to work in Denmark preferred

How to Apply:
