Electrical Project Manager | Ireland & Europe

- One of Europe's Leading Main Contractors with Significant Annual Turnover
- Excellent package & career development prospects
- Prestigious projects including Industrial, Data Centre, Pharmaceutical, commercial etc.

Oradeo Recruitment is presently seeking interest for an experience **Electrical Project Manager** to join an international market leading Main Contractor working on a number of large and prestigious projects (Pharmaceutical, Mission Critical, Industrial, Commercial etc.) within Ireland and Mainland Europe.

Duties & Responsibilities:

- The **Electrical Project Manager** will coordinate Electrical design, work with consultants and subcontractors
- Provides day-to-day contract and project leadership in line with the vision, purpose, and core values of the organisation
- Supervise the progress of work
- Prepare the project programme, including the delivery strategy and

- ensure project milestones are achieved
- Ensure smooth and timely flow of information between all parties to the contract
- Endeavour to identify and predict potential bottlenecks and delays and action remedies
- Keeping the project stakeholders informed of progress, cost and any other relevant issues
- Review project scope, and manage the budget and schedule
- Participate in design reviews
- The successful **Electrical Project Manager** will manage safety and quality aspects of the project in accordance with company procedures
- Agree valuations and final accounts with contractors and sub-contractors
- Review issues to drive continuous improvement
- Management of all commercial/contractual related aspects
- Preparing and complete commercial monitor reconciliation on a monthly basis to highlight areas of overspend or savings thus appropriate action can be taken
- Ensuring in receipt of and fully aware of all information at Estimating/Surveying handover
- The Development of Project Commercial Plans and ensuring buy in from the project team and management
- Plan, maintain and control the financial administration of all construction work to obtain and maintain maximum cost effectiveness
- Understand and implement the requirements of the company Commercial Management
- Work as an **Electrical Project Manager** to ensure effective procurement and supply chain management
- Fosters a client focused, technically excellent, driven, positive-oriented, accountable, and sustainable environment
- Engages, stretches, and leads high performance project management teams

Necessary Requirements:

- Ideally will possess a 3rd level qualification in Building Services/Electrical Engineering or equivalent although strong trades background will also be considered
- Ideally you will possess a minimum of 5 years of experience in a similar Project Manager role in M&E contracting
- In addition to having a strong technical background in contracting, the Electrical Project Manager ideally will possess experience on projects in excess of €30/£25 million in the Pharmaceutical or Data Centre sector.
- A proven track record of electrical fundamentals is essential
- Strong operational skills and an attention to detail, and experience of the design build process
- Good presentation and general management skills
- Strong written communication abilities, and the ability to negotiate a strong commercial position for the company are also essential

- The ability to multi-task and take an overview on a large number of projects at any time

For more information about this role or others, contact Tara Ryan at Oradeo Recruitment on +353 1 687 7188 or apply in confidence.
