Electrical Supervisor | Ireland & Europe

- One of Europe's Leading Main Contractors with Significant Annual Turnover
- Excellent package & career development prospects
- **Prestigious projects including Industrial, Data Centre, Pharmaceutical, commercial etc.**

Oradeo Recruitment is presently seeking interest for an experience **Electrical Supervisors** to join an international market leading Main Contractor working on a number of large and prestigious projects (Pharmaceutical, Mission Critical, Industrial, Commercial etc.) in Ireland and Mainland Europe.

Key Responsibilities of the Role:

- Establish performance and delivery criteria, ensuring that client requirements are being met
- Liaise with the client and establish a trusting relationship to ensure future project opportunities.
- Develop and administer quality control provisions; liaise on project

value engineering, as appropriate.

- Liaise with the client on KPI development and implementation.
- Champion the clients' Safety implementation on site and at site Safety Leadership meetings.
- Champion the clients' Quality focus on site and implement 'Right First Time' measures.
- Attend weekly update meetings as required.
- Management of the clients' team on site and coordination of Internal resources with the Project Manager.
- Assistance with the planning of all resources including labour, materials and sub-contractors
- Manage the day to day site activities to meet with all project requirements and deadlines
- Assist with the upkeep of redline drawings to develop as installed drawings for the O&M Manuals.
- Management on site of all subcontractors and direct personnel.
- Be aware of all milestone dates and ensure all on site activities are as per the produced schedule.
- Be aware of Electrical and Mechanical systems and equipment including UPS, STS, EPMS, BMS, Generators, Busbar systems and PDU's.
- To understand the nature of working in a live environment and appreciate the importance of maintaining all client's system during construction phases.
- Liaise with the client regarding the permitting of all works within the live environment and participate in the development of RAMS and relevant client permits.
- A strong understanding of the COHE policies and to liaise with various vendors and subcontractors in relation to LOTO of their equipment.
- Ensure the adherence to safety and quality standards
- All other duties associated with this role

Requirements:

- A trade background and 5 – 10 years previous experience in supervising large installation crews and sub-contractors.
- Experience on Data Centre or Pharmaceutical Projects.
- Proven record of supervising and managing large installation projects
- Knowledge of Health & Safety
- Experienced in design and build
- Good technical knowledge of both Electrical and Mechanical systems
- Excellent IT skills
- Excellent communication skills
- Ability to work well within strict deadlines
- Ability to drive a large-scale project
