[Electrical Testers – Netherlands \(EMC\)](#)

Electrical Testers

Oradeo Recruitment currently has vacancies for experienced LV Electrical Testers for a large commercial project in mainland Europe. This project is part of a number of similar works our client has on their portfolio so there is great prospect in continued work should the applicant be considered for this role. Flights, accommodation, and daily travel is provided throughout the length of the project.

Duties

- Knowledge and skill in safe operation and application of instrumentation to include circuit testers, power analysers, ground rod resistance meters, ground fault loop impedance testers and residual circuit device testers
- Skill in classifying electrical distribution systems, troubleshooting, identifying circuit faults and fault loop circuit paths, and proper grounding and bonding
- Ability to read and interpret drawings, schematics, instructions, and other technical documentation
- Fluent in reading, writing and speaking and understanding English
- Assign duties and inspect the work of electrical trades, ensuring

safety training and code compliance

- Inspect existing facilities and installations as required by statement of work
- Recommend improvements and revisions to current maintenance procedures
- Perform other duties as required

Requirements

- Minimum 8 years of experience in a similar role in the Ireland / UK / Mainland Europe
- Valid national trade card/certificate and further training as required
- Be able to provide at least 2 working references
- Previous Data Center experience preferred but not essential.
- Current valid passport/national ID

For more information about these opportunities or other positions, contact Oradeo Recruitment confidentially on +353 1 687 7188 or apply in confidence.
