Facade Manager | Dublin

- **Market leading specialist construction company with significant annual turnover**
- **Excellent package with a clear scope for career development**
- **Opportunity to be involved in a number of prestigious, large and technically challenging projects across multiple facets of the industry**

Oradeo Recruitment is presently seeking interest for a **Facade Engineer** on behalf of one of our clients who is a market leading specialist engineering construction company. The company are specialising in the design, manufacture and supply of specialist products to the UK & Irish construction markets. The company is headquartered in the Dublin area, with regional offices in the UK.

Oradeo Recruitment's client has an award winning reputation, they are a "best in class" Company, who collaborate with some of the most prestigious Clients, Architects, Consultant Engineers, Professional practices and Contractors in Ireland and the UK.

Facade Engineer Responsibilities:

- **Preparing conceptual, schematic, and detailed design solutions for facade design.**
- **Preparing detailed designs, calculations, and submissions for projects.**
- **Ensure that company is achieving and maintaining standards in compliance with all sustainability, fire and materials directives and legislation.**

- Liaising with clients and their representatives (e.g. architects, engineers and surveyors), including attending regular meetings to keep them informed of progress.
- Communicating and reviewing facade principles internally to ensure coordination with precast elements.
- Responsible for coaching and developing Engineers and Technicians in thermal, fire and acoustic best practice.
- Maintain accurate details and records, attending site as necessary to confirm installation.
- Manage and resolve buildability and performance issues through design, detailing and coordination.

Necessary Skills and Requirements:

- Education: Relevant Degree in Engineering / Architecture / Construction.
- Minimum 5 Years' Experience Working within the industry (Facade Experience Essential).
- Ability to carry out thermal, condensation and acoustic analysis of a range of façade materials.
- High levels of planning with an orientation towards design coordination.
- In depth knowledge of construction & constructability practices & principles.
- Must have strong facade design experience.
- Excellent attention to detail, written and oral communication skills.
- In depth knowledge of Building regulations essential.
- Knowledge of current BIM operating systems and standards along with proficiency in the use of Microsoft Office (Word and Excel), Project and BIM tools.
- Track record working with clients.
- Self-Motivated with ability to work on own initiative.

For more information about this Facade Engineer role contact Eavan McCallig at Oradeo Recruitment confidentially on +353 1 687 7188 or apply in confidence.
