Health and Safety Officer

- **Top 5 main Irish building contractor.**
- **Excellent opportunity for career growth and development.**
- **Dublin based location on a prestigious project.**

Health and Safety Officer required for a leading main Irish building contractor based in Dublin on a variety of large and prestigious projects. The **Health and Safety Officer** will be responsible for developing and maintaining safety procedures, preparing method statements, conducting risk assessment and carrying out site inspections and corrective measures. The **Safety Officer** will report directly to the Health and Safety Manager who will provide both training and support to ensure success and career development.

This is an excellent opportunity to be part of a growing organisation and the successful candidate will receive an excellent remuneration package and a clear scope for career progression throughout the organisation.

Duties and responsibilities:

- As a **Health and Safety Officer** you will assist in developing, monitoring, implementing and auditing health and safety procedures and policies for the business.
- Coordinate the Health and Safety committee for all sites and ensure regular weekly and monthly meetings.

- Update and maintain Health and Safety policies and procedures and the organisations safety statement in compliance with regulatory requirements.
- Improve Health and Safety culture through training and awareness.
- Represent the company during outside agency audits/inspection and liaise as required with the health and safety authority.
- Keep record of incidents and accidents and produce statistics for senior management.
- Keep up to date on new legislation and maintain a working knowledge of all Health and Safety Authority legislation and any development affecting the industry.
- Complete safety induction training for all new employees and subcontractors and maintain documentary evidence of same.
- Identify new and on-going safety related training requirements, ensuring all mandatory training is reviewed and delivered on time.
- Review subcontractor safety statements and safety compliance

Necessary skills and requirements:

1. Third Level education in Health and Safety or related discipline is required
2. A minimum of 3 years Health and Safety experience with a main contractors
3. Qualification in manual handling instruction would be an advantage
4. Experience in leading and carrying out Risk Assessment
5. Previous knowledge of OHSAS 18001 and ISO 14001 systems
6. Ability to deliver training modules to all levels of the Organisation to include, first aid, manual handling and fire warden training
7. Highly motivated and meticulous in attention to professional standards
8. Ability to work in a team environment and can engage, motivate and work with people
9. Excellent organisational and co-ordination skills
10. Good communication skills
11. Knowledgeable in Excel, Microsoft Word and Microsoft Windows Operating System
