Instrument Technician | Sligo

- **One of Europe's top M&E Contractors with significant annual turnover.**

Oradeo Recruitment is presently seeking interest for an experienced **Instrument Technician** to join a market leading Irish M&E contractor for a project based in Sligo.

As an **Instrument Technician** you will be responsible to install and commission the measuring and control devices used in industrial, pharmaceutical and commercial processing. The desired **Instrument Technician** will work with a wide variety of pneumatic, electronic and microcomputer devices used to measure and control pressure, flow, temperature, level, motion, force, and chemical composition.

Instrument Technician Responsibilities:

- Consult manufacturers' manuals to determine test and maintenance procedures
- Use pneumatic, electrical and electronic testing devices to inspect and test instrument and system operation, and diagnose faults
- Consult with and advise process operators
- Carry out risk assessments

- Calibrate and maintain components and instruments according to manufacturers' specifications
- Work with engineers on basic design
- Install and maintain instruments on new plant equipment and process equipment
- Interpret and use appropriate CSA, ISA and API installation standards and practices
- Ensuring that technical issues are resolved without delay.
- Prepare risk assessments, method statements & all aspects relating to Health & Safety.
- Liaise with the design team & supply chain to ensure correct operation of the plant on site & successful handover of all instrumentation.
- Monitor & record progress on site against the construction programme.

Necessary Requirements:

- Level 6 qualification time served tech
- At least 4-5 years' experience in a similar role
- Detailed knowledge of the Instrumentation role
- Pharmaceutical experience required
- Ability to work under pressure and anticipate any problems
- Detailed knowledge of the Instrumentation role Detailed knowledge of Electrical Instrumentation Commercial understanding
- Health, Safety and Environmental systems and procedures
- Knowledge of the team- their strengths and their weaknesses
