M&E Coordinator – UK/Ireland/Europe (NB)

- Large international Main Contractors turning over 400m+ annually
- Excellent package and scope for career progression
- Prestigious Projects

M&E Coordinator with recent experience in the (Irish/UK/EU market) to join a market leading international main contractor based in the Dublin area or the UK or Europe.

This tier one organisation has grown into a diversified firm working with a number of prestigious clients within a number of key sectors including Building, Civil Engineering, Demolition, Land Remediation/Restoration, Sports & Leisure (Stadiums) & Rail. As the **M&E Coordinator**, you will be part of the team to managing the successful delivery of a large Projects within Ireland the UK or Europe.

Duties & Responsibilities:

- Monitor, co-ordinate and control the flow of M&E design information to ensure the timely release of information for construction activities.
- Ensuring the M&E designers identify hazards and assess risks to health

and safety when designing the works.

- Review M&E design information at tender stage and undertake a full design gap analysis to advise the bidding team of any design shortfalls.
- Ensure all required approvals (statutory, regulatory, client and company) are in place as and when required.
- Assist in ensuring that the M&E designers produce design development programmes which meet the needs of the contract programme, and review the programmes regularly as required.
- Assist, when required, in the selection and appointment of the M&E consultant designers and design and build sub-contractors.
- Ensure M&E information released for construction has been reviewed by all interface designers and construction team and amended/approved prior to issue for construction and is in line with the specification/contract.
- Ensure M&E designs and details produced are economic and do not exceed budgeted or estimated cost without good reason and are in conformance with the specified or detailed requirements for quality.
- Ensure the M&E design is validated on completion of the works.
- Keep appropriate cost and installation records including the witnessing of testing and commissioning as required?
- Carry out cost checks on M&E design proposals and report serious deviations to senior management immediately.
- Ensure risk assessments are carried out and all risks identified.
- Assist in the production of O & M manuals on completion of the project.
- Ensure that specialist mechanical and electrical sub-contractors work strictly within company Safety Management System and comply fully with all its requirements.
- Promote the use of off-site manufacturing to ensure programme and quality requirements are achieved using modern methods.
- To ensure that production controls are in place for monitoring, reporting, benchmarking works and improving performance.
- You will be responsible for cost controlling costs on all aspects of the project and ensuring budgets are achieved.

Necessary Requirements:

- Minimum 5 years large-scale projects experience.
- A steady background in Mechanical and or Electrical with a Degree and or Trade in Building Services M&E.
- Managing progression of MEP services from start to practical completion.
- Knowledge and experience of Revit/BIM.
- Reporting to MEP Services Manager.

This is an excellent opportunity for a self-starter, highly motivated individual, within a dynamic, ambitious and market leading company. Suitable candidates should forward across an updated CV in confidence for the attention of Nick Barker @ nick.barker@oradeo.com or call me on +353 1 6877188 or +353 87 7209723.
