

# Mechanical Construction Manager | Dublin

## Mechanical Construction Manager | Dublin

- Major Building & Mission-Critical Projects
- Tier 1 Main Contractor with National Presence
- Excellent Package & Career Progression Opportunities

Oradeo Recruitment is currently seeking a **Mechanical Construction Manager** to join a leading main contractor delivering large-scale, high-tech projects in **Dublin**. This is a fantastic opportunity for an experienced mechanical professional to take on a leadership role with responsibility for overseeing the full delivery of mechanical systems on complex projects including data centers, commercial builds, and healthcare facilities.

### Responsibilities:

- Manage all aspects of mechanical construction activities on-site, from

pre-construction through to commissioning and handover

- Supervise mechanical subcontractors to ensure compliance with design, quality standards, programme, and safety requirements
- Coordinate with the design team, consultants, and client representatives to ensure smooth integration of services
- Plan and manage resources, materials, and sequencing to achieve project milestones
- Chair mechanical coordination meetings and report regularly to project leadership
- Oversee technical submissions, method statements, and quality documentation
- Monitor progress and prepare detailed reports for senior management
- Ensure all mechanical systems are installed, tested, and commissioned according to specifications and project requirements
- Resolve on-site issues and drive proactive risk management strategies

## **Requirements:**

- Degree qualified in Mechanical Engineering, Building Services, or a related field
- 8+ years' experience in mechanical project delivery, with at least 3 years in a management role
- Background in large-scale commercial, data centre, or healthcare projects preferred
- Strong knowledge of mechanical systems (HVAC, CHW, DHW, BMS, etc.)
- Proven ability to manage subcontractors and internal teams under demanding project timelines
- Excellent leadership, communication, and coordination skills

- Familiarity with BIM processes and digital project platforms is an advantage
- Right to work in Ireland required

### **How to Apply:**

For more information or to apply in confidence, please send your CV to **recruitment@oradeo.com**
