Mechanical Lead | Sweden

- Major Hyperscale Data Centre Project
- International Tier 1 Contractor
- Market-Leading Package & Rotation Support

Oradeo Recruitment is currently seeking an experienced **Mechanical Lead** to

join a leading international contractor on a large-scale **data centre project in Sweden**. This is an excellent opportunity for a senior mechanical professional to play a key role in delivering mission-critical MEP works on a high-value project in a fast-paced environment.

Responsibilities:

- Lead the mechanical delivery on site from pre-construction through to commissioning and handover
- Coordinate mechanical services installation (HVAC, piping, plumbing, etc.) to ensure alignment with programme, quality, and safety targets
- Manage the mechanical subcontractors, ensuring scope compliance and performance
- Work closely with the Project Manager and other discipline leads to drive project delivery
- Ensure installation works adhere to design specifications, technical submittals, and local standards
- Attend and contribute to daily coordination meetings, progress reviews, and client inspections
- Monitor testing and commissioning schedules and documentation
- Resolve technical and logistical issues as they arise
- Provide regular reporting to senior management and client representatives

Requirements:

- Degree qualified in Mechanical Engineering or related field
- 8+ years' experience in mechanical construction with at least 3 years in a leadership role
- Strong background in large-scale MEP installation, ideally within data centre or mission-critical environments

- Ability to manage subcontractors, programmes, and QA/QC systems
- Excellent technical understanding of mechanical systems (HVAC, CHW, DHW, etc.)
- Strong leadership and coordination skills in a multicultural site environment
- Willingness to work on rotation in Sweden (travel, accommodation, and expenses covered)
- EU passport or unrestricted EU work rights preferred

How to Apply:

For more information or to apply in confidence, please submit your CV to recruitment@oradeo.com
