Mechanical Project Manager | Europe | Top M&E Contractor

- **Market leading international M&E Contractor with significant annual turnover**
- **Excellent package on offer with clear scope for career development**
- **Large prestigious projects for many well-known blue-chip clients in Europe area's within Data Centres**

Oradeo Recruitment invites applications for the role of **Mechanical Project Manager** with strong IT skills for a data centre project either in Netherlands & Germany working for a large international Mechanical & Electrical Contractor. This is an excellent opportunity for individuals who are looking for career progression and development.

Oradeo Recruitment's client is an International Company which has gained significant experience across a wide section of construction sectors including Commercial, Industrial, Data Centre, Pharmaceutical or Power Generation on both Public and Private tenders/projects.

Duties and Responsibilities:

- The **Mechanical Project Manager** will coordinate Mechanical design, work with consultants and subcontractors
- Supervise the progress of work
- Prepare the project programme, including the delivery strategy and ensure project milestones are achieved.
- Ensure smooth and timely flow of information between all parties to the contract.
- As a **Mechanical Project Manager** you will endeavour to identify and predict potential bottlenecks and delays and action remedies
- Keeping the project stakeholders informed of progress, cost and any other relevant issues.
- Review project scope, and manage the budget and schedule.
- Perform Cost Analysis where required
- Participate in design reviews.
- Manage safety and quality aspects of the project in accordance with company procedures
- Agree valuations and final accounts with contractors and sub-contractors.
- Review issues to drive continuous improvement

Necessary skills and requirements:

- Minimum 5 years of experience in a **Mechanical Project Manager** role
- 3rd level Qualification in Mechanical Engineering – or strong trades background
- A strong technical background in contracting is essential for this role
- A proven track record of Electrical/Mechanical fundamentals is essential.
- **In addition to having a strong technical background in contracting, the Mechanical Project Manager ideally will possess experience on projects in excess of €30/£25 million in the Pharmaceutical, Data Centre, Industrial or Commercial sector**
- Strong operational skills and an attention to detail, and experience of the design build process
- Good presentation and general management skills
- Strong written communication abilities, and the ability to negotiate a strong commercial position for the company are also essential
- Data Centre essential
- Previous experience in managing a project of circa €20m
- Strong IT skills, minimum Word, Excel, AutoCAD, MS Project
- Eligibility to work in Europe – work visas/permits are not on offer at this time
