

MEP Quantity Surveyor (Various Locations Across Europe)

Key Responsibilities:

- Manage all aspects of cost management for **MEP (Mechanical, Electrical, and Plumbing)** packages on large-scale projects.
- Prepare, monitor, and manage budgets, cost plans, and cash flow forecasts specific to MEP works.
- Oversee procurement processes, including tender analysis, supplier negotiations, and awarding MEP subcontracts.
- Conduct detailed measurement and valuation of MEP works, ensuring accurate cost reporting and tracking.
- Assess and manage variations, claims, and changes to MEP scope to protect financial outcomes.
- Collaborate with project teams, engineers, and subcontractors to ensure cost efficiency and timely delivery.
- Provide regular, detailed cost reports and forecasts to project leadership and stakeholders.
- Ensure MEP packages meet all contractual, quality, and compliance requirements throughout the project lifecycle.

Requirements:

- Proven experience as a Quantity Surveyor, with a focus on **MEP works** (Mechanical, Electrical, and Plumbing).
- Strong experience working on **data centre projects** is highly desirable.
- Degree qualification in Quantity Surveying, Mechanical/Electrical Engineering, Construction Economics, or a related field.
- Excellent commercial awareness and experience managing MEP costs on large-scale projects.
- Proficiency in cost management tools and software (e.g., CostX, Cubit, Excel).
- Strong negotiation, analytical, and problem-solving skills.
- Ability to manage multiple priorities and deadlines within dynamic project environments.
- Willingness to travel or work on-site across European project locations as required.

What's On Offer:

- Competitive salary and benefits tailored to experience.
- Opportunity to work on prestigious, high-value **MEP and data centre projects** with leading international contractors.
- Accommodation, travel allowances, and additional support provided as required.
- Excellent career progression opportunities within a dynamic and growing sector.
