[Project Engineer | Galway | Mayo](#)

[Project Engineer | Galway | Mayo](#)

- Long established market leading company with significant annual turnover
- Opportunity to be involved in a number of prestigious Building & Infrastructure, Energy & Environment & Water Services and Resources projects

Oradeo Recruitment is presently seeking interest for a **Project Engineer** on behalf of one of our clients who is a market leading company to be based in either Galway or Mayo. The company are well established and very experienced in delivering projects in partnership with their clients. The successful candidate will join a strong team of professionals who cover a broad range of projects in the public realm space.

This is an excellent opportunity for the right candidate who will be on a defined career path with clear objectives and progression goals in order to progress and develop their career further.

Project Engineer Responsibilities:

- Responsibility for handling Technical matters.
- Working closely on construction plans with clients, architects, and other professionals.
- Making sure that projects meet legal guidelines, environmental directives, and health and safety requirements.
- Using a range of computer packages for developing detailed designs.
- Managing budgets and project resources.
- Undertaking technical and feasibility studies including site investigations.
- Supervise project teams and give progress reports to both clients and senior managers.
- Involve design team in supply chain and procurement
- Identify need for and manage specialist sub-contractor/consultancy designs
- Identify and manage third party involvement

Necessary Skills and Requirements:

- You will possess a 3rd level qualification in Civil Engineering
- 5+ years' experience in civil engineering (design AND project management) preferably in the areas of Public Realm and Urban Regeneration or Public Works that entailed Pavement, Utility, Public Lighting and Streetscape Enhancement Design or Management of such Works
- Previous experience of working in the design and project management of civil projects
- Experience of working in collaboration with other design disciplines, namely; architects, landscape architects and urban designers
- Excellent written English
- Excellent communication and teamwork skills are essential.

For more information about this Project Engineer role or other Engineer positions, contact Declan Duggan at Oradeo Recruitment confidentially on +353 1 687 7188 / +44 845 643 4964 or apply in confidence.
