

# Project Engineer | Leading Contractor | Dublin

## Project Engineer | Leading Contractor | Dublin

- **High-profile commercial and residential projects in Dublin**
- **Work with a respected contractor with a strong track record of delivering complex developments**
- **Excellent package and career progression opportunities**

Oradeo Recruitment are seeking an experienced **Project Engineer** to join a leading contractor in Dublin, managing on-site operations and ensuring projects are delivered on time, within budget, and to high-quality and safety standards. This is a fantastic opportunity to work on **medium to large-scale developments**, where you can leverage your technical expertise, leadership, and problem-solving skills to make a real impact.

## Senior Site Engineer Responsibilities:

- Support the Project Manager and wider team by providing technical advice on the project
- Liaise daily with the project team, design team, and subcontractors
- Perform technical verification of civil engineering designs, models, and drawings
- Implement QA procedures, including concrete pre- and post-pour checks, RFIs, and resolution of technical issues
- Assist in maintaining and monitoring safe working practices on site
- Monitor and record materials, plant, and logistics
- Maintain accurate records and produce regular reports

## Necessary Skills & Requirements:

- Relevant third-level degree
- 8+ years' experience in a similar role
- Previous experience with a main contractor
- Project experience on RC frame, commercial and residential.
- Proficient in the use of GPS, robotic total stations, and levelling equipment (essential)
- Excellent IT skills, with knowledge of AutoCAD, Revit, Navisworks, and Microsoft Office
