

Project Manager (Internal Fit-Outs) | Tralee, Co. Kerry

Project Manager (Internal Fit-Outs) | Tralee, Co. Kerry

International market-leading Tier 1 construction organisation delivering high-quality building and fit-out projects

Opportunity to lead full project lifecycle delivery on technically detailed internal fit-out works

Excellent salary and benefits package available

About Oradeo

Oradeo is an international recruitment and project services consultancy specialising in the delivery of mission-critical construction projects across Europe. We partner with top-tier contractors and global clients to provide high-quality staffing, project support, and professional services.

We are currently recruiting a **Project Manager (Internal Fit-Outs)** to join a project team based in **Tralee, Co. Kerry**. This role offers the opportunity to manage the successful delivery of internal fit-out works from pre-construction through to completion, working within a professional and well-structured project environment.

Role Overview

Reporting to the Project Director, the Project Manager is responsible for the end-to-end delivery of internal fit-out construction works, ensuring projects are delivered safely, on programme, within budget, and to the highest quality standards.

The role involves leading multidisciplinary project teams, managing client and stakeholder relationships, and ensuring full compliance with contractual, regulatory, and company requirements throughout the project lifecycle.

Key Responsibilities

Project Delivery

Plan, manage, and deliver internal fit-out projects in line with agreed programme, budget, and specifications

Lead multidisciplinary teams across engineering, commercial, design, and construction functions

Monitor progress against programme, manage risks, and implement corrective actions where required

Ensure effective resource allocation and achievement of key project milestones

Maintain accurate reporting on progress, costs, quality, and key performance indicators

Quality, Safety, and Compliance

Promote and maintain the highest standards of health, safety, and environmental performance across all activities

Ensure all works comply with design documentation, specifications, and statutory regulations

Implement and monitor project-specific quality plans, method statements, and inspection regimes

Support audits, inspections, and reviews, driving compliance and continuous improvement

Commercial and Contract Management

Manage project budgets, forecasts, variations, and cash flow in collaboration with the commercial team

Ensure accurate reporting and effective contract administration

Ensure procurement processes are followed and subcontractor performance is managed effectively

Support tendering, bid preparation, and preconstruction activities where required

Leadership and Communication

Lead, motivate, and develop project teams, fostering collaboration, accountability, and professional development

Build and maintain strong working relationships with clients, consultants, and supply chain partners

Chair progress, coordination, and client meetings, ensuring clear communication of objectives and outcomes

Act as the primary point of contact for project-related decisions, queries, and escalations

Candidate Requirements

Degree-qualified in Construction Management, Engineering, Architecture, or a related discipline

Proven experience in a Project Manager role within a Tier 1 construction or engineering environment

Experience delivering internal fit-out or building projects is highly advantageous

Relevant health and safety certification (Safe Pass, CSCS, SMSTS, or equivalent)

Strong leadership, communication, and stakeholder management skills

Proactive, organised, and capable of managing multiple priorities in a fast-paced environment

Desirable

Professional membership or working towards membership of a recognised body (CIOB, Engineers Ireland, RICS, ICE, or equivalent)

Postgraduate qualification in Project Management or Business Management

Training or experience in lean construction, digital project delivery, or sustainability practices

Package

Highly competitive salary depending on experience

Company vehicle or travel allowance

Pension and benefits package

Long-term career progression with a leading international contractor

Ongoing professional development and training support
