

Project Manager

Project Manager/ Europe

Responsibilities

- Ensure efficient and effective engineering and innovation performance shaping the program and delivery of the project.
- Develop Project Planning Strategies – collaborating with the project teams to manage and motivate them
- Manage, track and develop plans for project costs, budgets, project labour, commissioning procedures and project performance.
- Direct the set up for the project, making sure that best practice meeting and reporting documentation and schedules are implemented from the outset.
- Continuous engagement with key project stakeholders such as Client and Design Teams to ensure project performance.
- Oversee ongoing client satisfaction with the project, especially in terms of cost, scope, and timescales
- Proactively monitor the project's health & safety processes as well as the team's culture and behaviours
- Monitor and ensure the quality targets are achieved and exceeded on the project

Requirements

- Previous experience in Project Management, at least 5 years leading projects from commencement through to completion
- Good technical knowledge of Electrical, Mechanical and CSA elements of construction projects
- Proven record of coordinating and managing large installation projects
- Knowledge of Health & Safety
