Recruitment Consultant | Mayo/Dublin

- **Leading Recruitment Consultancy**
- **Excellent career progression opportunities along with a generous package and uncapped commission**

Oradeo Recruitment is presently looking for a **Recruitment Consultant** to join their team. This position can be based in either Mayo or Dublin.

Oradeo is an international recruitment company and is seeking an experienced recruitment consultant to join a rapidly expanding recruitment team in either their Kiltimagh, Mayo office or their office in Citywest, Dublin. The role entails working closely with existing and new client companies within the construction and engineering sectors. This will suit an ambitious person with a strong work ethic who is looking to develop a long-term career with an expanding and ambitious organization.

This position would come with an excellent remuneration package and a clear path for career growth.

Recruitment Consultant Responsibilities:

- Generate vacancies with client companies by marketing and business development
- Update and maintain database and carry out database searches to source candidates
- Attract and assess candidates through referral, advertisement and quality contacts

- Place candidates by effective recruitment methods, generating fees to meet revenue targets
- Actively establish and enhance relationships with new and existing clients.
- Build and retain a network of sources to improve and expand the range and quality of information on candidates and companies
- Proactively participate in business development and targeted marketing campaigns

Person Specification:

- 1-3 years recruitment experience preferably within in the construction/engineering sectors
- Third level qualification required
- Excellent communication and negotiation skills
- Highly motivated and eager to take on the challenges and rewards that result
- Strong interpersonal and organizational skills
- Work ethic – been able to work in a fast-moving busy environment as a team player but also

been able to self-motivate to deliver results

- Good IT skills
