[Senior Civils Quantity Surveyor Cork \(EMC\)](#)

Senior Civils Quantity Surveyor Cork

- **Large bespoke and prestigious projects.**
- **Top Irish Contractor**
- **Excellent package and career development on offer.**

Quantity Surveyor required to join a contractor based in the Cork area. The successful **Quantity Surveyor** will be involved in a number of large, prestigious projects with the commercial, residential, industrial, education and healthcare sectors.

As a member of the commercial team, the **Quantity Surveyor** will be tasked with managing the successful delivery of a number of interesting projects within the Cork area. As part of a market leading main contractor, the successful individual will gain access to further career development within the organisation into a more senior management function. This is a permanent position with the organisation and will come with an excellent remuneration package.

Duties and Responsibilities:

- Reviewing of contracts to ensure compliance.
- Operational procurement activity and contract support, in conjunction with the procurement department.
- Reviewing and commercial management of projects to ensure accurate and

reliable reporting.

- Identify, analyse and report on trends within the business and projects.
- Management and forecasting the cash flow of both projects and the business.
- Provide data and analysis of issues & risks as required by management.
- Improve and implement best practice commercial processes and accurate budgeting.
- Review all incoming correspondence from employers, design team, subcontractors etc. to identify contractually critical items and initiate replies.
- Ensure compliance with contract programme and schedule and provide weekly reports to construction team on planned vs. actual progress.
- Ensuring construction team is adhering to all contractual requirements and providing advice and monitoring of same.
- Responsible for cost c controlling on all projects and ensuring budgets are achieved.
- Proactive engagement with the project managers on all live projects, to ensure the business goals are achieved and the commercial interest of the company are protected.
- Monitoring projects through design stage and working with the design team to ensure project deliverable are achieved and project risks are minimised.
- Issuing tender queries and preparation of tender reports and letting of subcontract packages.
- Manage subcontractor accounts, interim valuations and final accounts. Ensure payment certificates are processed and payments are made per the agreed subcontract and procurement terms.
- Issue interim and final accounts and progress applications per project and contract requirements.

Necessary Requirements:

- Qualified in Quantity Surveying or Construction economics.
- Minimum 8 years' experience in a Quantity Surveying role with an established building contractor.
- Familiar with MS Office applications such as Word, PowerPoint, Excel and Outlook.
- Analytical thinker with demonstrated problem solving skills.
- Previous people management experience required.
- Ability to perform multiple tasks at a high level of quality.
- Ability to work well under pressure and within a strict deadline environment.
