Senior EHS Advisor| Data Centre Projects | Frankfurt, Germany

Senior EHS Advisor| Data Centre Projects | Frankfurt, Germany

- Join a leading international construction contractor on major construction projects in Germany
- Play a key role in promoting a positive health, safety and environmental culture on-site
- Opportunity to develop your career within a growing international construction organisation

Oradeo Recruitment are seeking an experienced Senior EHS Advisor to join a leading construction contractor on major projects in Frankfurt, Germany. The successful candidate will be responsible for implementing and monitoring the company's Environmental, Health & Safety (EHS) Management System, promoting best practice and ensuring compliance with health and safety standards across the project.

Senior EHS Advisor Responsibilities:

- Implement and monitor the company's EHS Management System across the project.
- Promote a positive health and safety culture on-site, working closely with Site Management, contractors and the wider workforce.
- Monitor on-site EHS compliance and conduct regular inspections, preparing weekly inspection reports and associated documentation.
- Develop and maintain collaborative working relationships with the wider project team, subcontractors and other stakeholders.
- Influence, support and coach site personnel in the implementation of best practice EHS standards.
- Support the continuous improvement of health and safety practices and ensure compliance with project requirements.

Necessary Skills & Requirements:

- Recognised qualification in Environmental, Health & Safety, such as a relevant degree or diploma. A NEBOSH Diploma or equivalent qualification is preferred.
- Minimum of 8 years' experience in Health & Safety roles.
- Previous experience within the construction industry is preferred.
- Strong organisational skills, with the ability to prioritise workloads and manage multiple tasks effectively.
- Proficiency in Microsoft Office applications, with experience using relevant databases.
- Excellent communication and interpersonal skills, with the ability to engage effectively with site management, contractors and the wider workforce.
- Ability to work effectively as part of a team and collaborate with colleagues across all levels of the project.
