Senior Electrical Engineer | Dublin

- **Excellent package & career development prospects**
- **Exposure to some of the world's most complex Industrial and Pharmaceutical projects**

Oradeo Recruitment is presently seeking interest for an experienced **Senior Electrical Engineer** role for our client who are an Electrical and Instrumentation contractor working with some of the leading M&E contractors in Ireland and Europe across a number of different sectors including Data Centre, Power Generation, Commercial, Pharmaceutical and Petrochemical. The role is for an experienced Electrical Engineer on a permanent basis to be site based on projects in **Dublin** and the **Leinster / Greater Dublin area**.

You will assist with the completion of the design of the electrical projects, assist during construction stage and to carry out work such as completion of O&M manuals, As-Built Drawings, RFI Schedules, Technical Submittals, Design, Procurement Register and Progress Reports.

Senior Electrical Engineer Responsibilities:

- Assisting with final electrical design
- Alterations to working drawings.
- Preparation of design drawings covering all aspects of High & Low voltage equipment.
- Liaise and co-ordinate with members of the design team, contractors and in-house project team on technical and commercial issues.
- Engineering assistance during construction stage and commissioning
- Creation of installed drawings and O&M manuals.

Necessary Requirements:

In order to be considered for this role you must have an Electrical Engineering Degree and have a minimum 2-3 Years' Experience in a similar role (Design or Consultancy) with excellent knowledge of design software (CAD, BIM, etc.) and Microsoft Office. Data Centre experience is also essential for this role.

For more information about this Senior Electrical Engineer position or other Electrical Engineer opportunities, contact Declan Duggan at Oradeo Recruitment confidentially on +353 1 687 7188 / +44 845 643 4964 or apply in confidence.
