

# Senior Engineer | Leading Contractor | London

## Senior Engineer | Leading Contractor | London

- High-profile Critical Environments such as Data Centres, Life Sciences, Aviation, High Value Manufacturing and Critical Logistics
- Work with a respected contractor with a strong track record of delivering complex developments
- Excellent package and career progression opportunities

Oradeo Recruitment are seeking an experienced **Senior Engineer** to join a leading contractor in London, managing on-site operations and ensuring projects are delivered on time, within budget, and to high-quality and safety standards. This is a fantastic opportunity to work on **medium to large-scale developments**, where you can leverage your technical expertise, leadership, and problem-solving skills to make a real impact.

## Senior Engineer Responsibilities:

- Assume day-to-day management of the site technical & engineering requirements (RFIs, Submittals, Shop Drawings, Design Team Workshops, etc.).
- Ensure quality control measures on the site are implemented and are in line with the overall BCAR plan for the project.
- Liaise with any consultants, subcontractors, supervisors, planners, quantity surveyors in the planning & construction of the project.
- Support the Project Manager/Contracts Manager to ensure that works are completed as per programme, on budget to a high standard.
- Identify any information gaps, develop solutions and rectify in conjunction with the project and design teams.
- Maintain excellent relationships with the construction project team and subcontractors

### **Necessary Skills & Requirements:**

- Third level qualification in Engineering or related discipline.
- Knowledge of various types of construction and construction techniques.
- Competent in all aspects of set out, survey & level, temporary works co-ordination.
- Strong numeracy and report writing skills.
- Ability to formulate plans and execute in line with budget and timeline.
- Ability to make informed decisions & know when to escalate.
- Computer literate and familiar with MS Project, (or similar scheduling package).
