- **One of Ireland's Top 5 Tier 1 Main Contractors with significant annual turnover.**
- **Excellent career progression opportunities along with a generous package.**
- **Exposure to large, interesting and prestigious projects.**

Oradeo Recruitment is presently seeking interest for an experienced **Senior Engineer** (ideally you will possess either fit out or structures experience) ideally with solid contractor experience to join one of Europe's top Tier 1 Main Contractors permanently initially based in **Sweden**. As a **Senior Engineer** you will gain exposure to prestigious projects across Europe on large, prestigious pharmaceutical, industrial, commercial and data centre projects

Become a **Senior Engineer** with a building contractor with an outstanding reputation in the market on large scale construction projects. This position would come with an excellent remuneration package and a clear path for career growth and development.

Senior Engineer Responsibilities:

- Managing a team of Engineers & Chainmen.
- Maintaining the drawing register, stamp drawings “received” and filing superseded drawings.
- Ensuring that the drawing rack is up-to-date with the latest drawing.
- Ensuring drawing rack is labelled correctly & precisely for ease of use by other members of the site team.
- Ensuring all contractors on site is working to the latest set of construction drawings / details.
- Check, understand and interpret specifications and drawings. Inform site management of potential issues that could affect sequencing of works, and timely procurement of isolate elements.
- Checking plans, drawings and quantities for accuracy of calculations
- As a **Senior Engineer (ideally possessing either Structures or Fit out/Refurbishment experience)** you will be liaising with the local authority, clients and their representatives (where appropriate to the project) to ensure compliance with local construction regulations and by-laws & setting coordinates.
- Raise RFI’s if information is not clear on drawing and chase for response.
- Maintain RFI register, and update for every progress meeting / Design Team Meeting.
- Liaise with QS when raising RFI’s to ensure maximum scope
- Resolve discrepancies identified on drawings and specifications.
- Monitor quality of workmanship & materials,
- Prepare and review pre –pour sheets for all elements of work.
- The **Senior Engineer** will attach post pour sheet & pre pour and file as per BCAR requirements. Ensure sufficient progress photos are taken and filed correctly.
- Quality – ensure all testing of materials – blocks, hardcore, CBR’s etc... are carried out as per HHP / MCOH specification, and results are issued in a timely manner.
- Issuing NCR to contractors during works / when work completed on site is not to specification or tolerance.
- Close out NCR’s with contractors and inform QS of delays or costs incurred
- Keep a daily of all relevant events.
- Maintain as built drawings, liaising with site management to meet project deadlines.
- Ordering materials for external works, labour only contractors – ensuring there is sufficient orders place in adequate time to avoid delays on site.
- As a **Senior Engineer** you will be coordinating external works and liaising with PM / SM to ensure there is no delays caused due to coordinating external works and internal works.
- Where possible maximizing plant and materials between both external & internal works. I.e. crane, concrete etc.
- Issue the relevant permits along with SM for hot works, excavations, etc.

Necessary Requirements:

- 3rd level qualification in Civil Engineering or Construction Management.
- Minimum of 5 years' experience preferably within the Irish, UK or European market working for recognised Main Contractor or Specialist Subcontractor
- Ideally the **Senior Engineer** will have developed experience on projects in excess of €20 million within the commercial, hospitality, mixed-use, high-rise, healthcare etc. sectors
- Strong operational skills and an attention to detail, and experience of the design build process.
- Ideally you will possess Structures and / or Fit-out/refurbishment experience
- Strong and effective communication and interpersonal skills.
- Analytical thinker with demonstrated problem solving skills
- Previous people management experience required.
- Ability to perform multiple tasks at a high level of quality.
- Ability to work well under pressure and within a strict deadline environment.
