

Senior Planner | Dublin

Senior Planner | Dublin

- International market-leading construction organisation delivering major projects across Ireland and Europe
- Excellent package with long-term career progression
- High-profile projects within a rapidly expanding mission-critical sector

About Oradeo

Oradeo is an international recruitment and project services consultancy specialising in mission-critical and large-scale construction projects across Europe. We partner with global blue-chip clients and tier-one contractors, providing expert staffing, planning, and project delivery solutions.

We are currently seeking an experienced **Senior Planner** to support the delivery of major Data Centre, Pharmaceutical, Infrastructure, Commercial & Residential projects based in Dublin.

Role Overview

The Senior Planner will be responsible for the development, management, and monitoring of project programmes on large-scale data centre developments. This role requires strong planning expertise, excellent stakeholder engagement skills, and the ability to provide forward-looking insights that support project certainty and performance.

Key Responsibilities

Programme Development & Reporting

- Prepare detailed contract and project programmes.
- Produce monthly progress reports and present schedule updates to the wider project team.
- Monitor outputs, trends, and resource needs to strengthen the planning department's knowledge base.

Tender & Construction Support

- Complete all scheduling and reporting requirements for tender submissions and live contracts.
- Ensure all planning deliverables meet the highest standards of quality and accuracy.

Project Collaboration & Stakeholder Engagement

- Work closely with the project delivery team on all scheduling-related activities.
- Build and maintain strong, collaborative relationships with consultants, subcontractors, and the wider supply chain.

Planning Reviews & Risk Mitigation

- Conduct short- and medium-term planning reviews to identify risks and implement mitigation strategies.

- Challenge assumptions, explore alternative construction approaches, and contribute to continuous improvement across the project.
-

Candidate Requirements

Experience & Qualifications

- Relevant third-level degree (Engineering, Construction Management, or a related discipline).
- 5+ years' industry experience.
- Proven planning and scheduling experience on Data Centre projects.

Technical Competencies

- Strong proficiency in **Primavera P6**, **Microsoft Excel**, and **PowerPoint**.
 - Excellent analytical, reporting, and communication skills.
-

Package

- Competitive salary
- Company vehicle or travel allowance
- Relocation support where applicable
- Laptop and phone provided
- Pension, life insurance, and income protection
- Continuous Professional Development (CPD)
- Access to lifestyle and wellbeing benefits including Bike to Work, Employee Assistance Programme, and Sports & Social Club
