Senior Project Engineer | West of Ireland

- Leading Medical Device Company in the West of Ireland
- Excellent career progression opportunities along with a generous package.
- Exposure to large, interesting, and prestigious projects.

Oradeo Recruitment is presently seeking interest for an experienced **Senior Project Engineer** to join our clients, a leading medical device company in the West of Ireland.

Reporting to a Business Unit Engineering Manager, the Senior Project Engineer will have an expert understanding of engineering principles theories, concepts, practices and techniques. The Senior Engineer will lead manufacturing support, implementing process improvement initiatives and lead projects across a range of product lines

Duties and Responsibilities:

- Lead a team of Engineers & Technicians

- Project manage and lead new product introduction projects introducing new processes as appropriate
- Facilitate Customer conference calls and interaction
- Act as key point of contact for manufacturing support over a range of manufacturing processes
- Lead process improvement initiatives to reduce cost and to improve manufacturing efficiency by using data analysis
- Carry out process and product validations
- Implement product, process and material changes through validation, change control and documentation updates
- Familiarize yourself with a variety of processes to allow you to work across a number of product lines
- Conform to the requirements of the quality and environmental management system
- Additional ad hoc duties and projects as assigned

Qualifications and Experience Required:

- Level 8 or equivalent Degree in Engineering or similar discipline is desirable
- 8 years' experience in a medical device manufacturing engineering role is desirable
- Vast experience of medical device validation protocols and associated documentation
- Knowledge of AutoCAD and Solid Works is desirable
- Lean and six sigma knowledge
- Strong process engineering background
- New product introduction experience
- Strong team player
- Ability to work with and lead cross-functional teams, including quality, production and supply chain.
- Excellent interpersonal skills.
- Strong ability to work on own initiative and driven to achieve results
- Ability to plan, organise, and prioritise own daily work routine to meet established schedule.
- Good understanding of ISO 9001: 2008 and ISO 13485.
- Excellent knowledge of MS Office

For more information about this role or other opportunities, contact Angela Haran at Oradeo Recruitment confidentially on +353 1 687 7188 or apply in confidence.
