## Quantity Surveyor | Galway, Dublin or Europe

- **Top European Construction Company** turning with **significant annual turnover**
- **Excellent remuneration package** with **generous benefits.**
- **Clear scope for career development** throughout organisations **commercial team.**
- **Exposure to prestigious projects; Data Centre, Pharmaceutical, Industrial, Commercial, Petro-chemical etc.**

**Oradeo Recruitment** is presently seeking interest for a **Quantity Surveyor** to join a European market leading Construction Company. The successful **Quantity Surveyor** will be involved in a number of large, prestigious projects for many well-known blue chip clients within the Data Centre, Industrial and Pharmaceutical, Commercial, Petro-Chemical etc.

As a member of the commercial team, the **Quantity Surveyor** will be tasked with managing the successful delivery of a number of interesting projects from a CSA (Civil, Structural & Architectural) aspect. **Initially based on a large multimillion mission critical facility**, however this role will in time give the successful individual the opportunity to further develop their career with this well-established organisation into a more senior management

function.

### **Quantity Surveyor Responsibilities:**

- Reviewing of contracts and ensuring compliance.
- Procurement – operational procurement activity and contract support, in conjunction with the Procurement Department.
- Managing and forecasting the cash flow of a series of projects and the business
- Reviewing and commercial management of all projects, to ensure accurate and reliable reporting
- Identify, analyse and report on trends within the business & projects
- Provide data and analysis of issues & risks as required by management
- Improve and implement best practice commercial processes and accurate budgeting
- Ensure compliance with Contract Programme /Schedule and provide weekly reports to construction team on planned versus actual progress
- Review all incoming correspondence from employers, design team and /or subcontractors, to identify contractually critical items and to initiate replies
- As a **Quantity Surveyor (CSA biased)** you will be tasked with ensuring the construction team is adhering to all contractual requirements and providing advice and monitoring of same
- Ensure reporting is in line with group policies & highlight exceptions to management
- You will manage a team of quantity surveyors to ensure all commercial aspects of the business are managed effectively
- You will be responsible for cost controlling costs on all projects and ensuring budgets are achieved.
- Proactive engagement with the project managers on all live projects, to ensure the business goals are achieved and the commercial interest of the company are protected
- Monitoring projects through design stage and working with the design team to ensure project deliverables are achieved and project risks are minimised
- Issuing tender queries and preparation of tender reports and letting of sub-contract packages
- Preparing progress applications and cost reports, and monthly management accounts for each project.
- Vetting all main contracts and negotiations of the commercial risks with perspective clients
- General participation in management issues of the company
- Manage subcontractor accounts, interim valuations and final accounts. Ensure payment certificates are processed and payments are made per the agreed sub-contract and procurement terms. Retentions apply as per agreements.
- Ability to administer the contract obligations and meet additional client requirements. Issue interim and final accounts and progress applications per project and contract requirements. Monthly applications to be all inclusive of accurate remeasures, site changes, dayworks and any applicable contract claims. Identify escalations, material or

labour, as appropriate.

### **Necessary Requirements:**

3<sup>rd</sup> level Qualification in Quantity Surveying/Construction Economics.

- Minimum of 8+ years' experience working on building projects with a recognised main contractor or specialist subcontractor
- Experience working on projects in excess of **€30 million in the capacity of a Quantity Surveyor/Senior Quantity Surveyor in either commercial, industrial, pharmaceutical or data centres** with an established main contractor or specialist subcontractor.
- A proven track record of quantity surveying fundamentals is essential.
- Strong operational skills and an attention to detail with experience of the design build process.
- The ability to multi-task and take an overview on a large number of projects at any time.
- Strong written communication abilities and the ability to negotiate a strong commercial position for the company are essential.
