

Senior Site Engineer | Dublin, Ireland

Senior Site Engineer | Tier 1 Contractor | Dublin, Ireland

- High-profile residential, commercial, and critical environment projects
- Tier 1 & Tier 2 construction contractors with strong Irish and European presence
- Competitive package & career development opportunities

Oradeo's client is a market-leading construction contractor delivering projects in residential, commercial, and critical environments including data centres, life sciences, and high-value manufacturing. We are currently seeking an experienced **Senior Site Engineer** to join ongoing projects in Dublin. This is an excellent opportunity to work with a tier 1 contractor, manage high-quality projects, and progress your career.

Duties & Responsibilities

- Manage day-to-day site operations, ensuring projects are delivered safely, on time, and within budget.
- Supervise subcontractors, tradespeople, and site teams to ensure efficient workflows and quality outputs.
- Oversee technical aspects of the project: RFIs, submittals, shop drawings, design workshops, and site surveys.

- Conduct regular inspections to ensure compliance with design specifications, technical standards, and building regulations.
 - Coordinate with Project Managers, Contracts Managers, and clients to resolve issues and maintain strong relationships.
 - Monitor and manage plant, labour, and materials, maintaining accurate daily site records.
 - Implement QA and safety procedures, including site inductions, toolbox talks, risk assessments, and safe working practices.
 - Set out works using robotic total stations, GPS, and other surveying tools.
 - Provide technical support for on-site challenges and communicate design changes effectively.
 - Report regularly on project progress, resources, costs, and schedule deviations.
-

Necessary Requirements

- 5–7+ years' experience in a similar role with a main contractor on medium to large-scale projects.
- Bachelor's degree in Civil Engineering, Construction Management, or related field.
- Strong understanding of construction methods, project delivery, and Irish building regulations.
- Experience with site set out, levelling, GPS, and robotic total stations.
- Proficient in AutoCAD, Revit, Navisworks, MS Project, and Microsoft Office.
- Excellent organisational, communication, and interpersonal skills.

- Strong problem-solving, analytical, and decision-making capabilities.
 - Ability to work independently and collaboratively within a fast-paced environment.
 - Adaptable, detail-oriented, and able to manage multiple priorities under pressure.
-

Package & Benefits

- Competitive salary, commensurate with experience
 - Company vehicle or travel allowance
 - Pension, life insurance, and income protection
 - Continuous Professional Development (CPD)
 - Company laptop and phone
 - Relocation support (if applicable)
 - Lifestyle benefits including Employee Assistance Programme and Sports & Social Club
-
