[Senior Site Manager | Europe \(EMC\).](#)

Senior Site Manager | Norway (Data Centre exp.)

- **Excellent basic salary with heaps of additional benefits & career development prospects**
- **Prestigious M&E Projects within the Data Centre, Pharmaceutical, Industrial and Cleanroom sectors**

Oradeo Recruitment is currently seeking a **Senior Site Manager** with high solid previous experience working for a main contractor or specialist M&E subcontractor for projects initially based in Norway. The successful **Site Manager** will be working for one of the leading international specialists in construction, fit-out and asset management and initially will be based on a highly confidential and sought after multimillion euro data centre.

Site Manager Responsibilities:

- The Management of employees, subcontractors and materials to ensure the safe and effective delivery of contract works
- Ensure works are carried out in the most efficient manner possible to achieve optimum commercial results for the contracts under his/her control
- The Senior Site Manager will ensure contract costs are managed within budget and programme
- Ensuring all work is completed to an acceptable quality standard and in compliance with specification

- Ensure the implementation of Quality management System to include Quality and Environmental processes and procedures
- Ensure adequate resources are in place for contracts under their control
- Ensure contract review meetings are held on all contracts
- Ensure Pre-Appointment and co-ordination meetings are held with all Sub-Contractors
- Complete “Performance Reviews” and the “Personal Development Plans” for direct reports ensuring future staff development

Necessary skills and requirements:

- Have a minimum of 8 years construction site management experience working in either data centre, pharmaceutical or industrial sectors from €15+ million
- Experience of Data Centre fitout would be advantageous
- Have a sound knowledge of current construction techniques
- Ideally have a minimum of a 2:1 Hons Degree in an Engineering/construction related discipline or strong trades background
- Knowledge of design procurement
- Knowledge of construction methods and best practice, technologies and materials
- Knowledge and understanding of claims and L&E
- Knowledge and understanding of subcontract/material procurement
- Knowledge of Management Systems
- Knowledge of standards and specifications
- Knowledge of commercial management
- Knowledge of Safety & Health and Quality Policies and Procedures
- Have a proven track record of seeing projects through to their successful completion.
- Familiar with MS Office applications such as Word, PowerPoint, Excel and Outlook.
- Strong and effective communication and interpersonal skills.
- Analytically thinker with demonstrated problem solving skills
- Ability to perform multiple tasks at a high level of quality
- Ability to work well under pressure and within a strict deadline environment
