

Site Engineer | Leading Contractor | Cork

Site Engineer | Leading Contractor | Cork

- High-profile Critical Environments such as Data Centres, Life Sciences, Aviation, High Value Manufacturing and Critical Logistics
- Work with a respected contractor with a strong track record of delivering complex developments
- Excellent package and career progression opportunities

Oradeo Recruitment are seeking an experienced **Site Engineer** to join a leading contractor in Cork, managing on-site operations and ensuring projects are delivered on time, within budget, and to high-quality and safety standards. This is a fantastic opportunity to work on **medium to large-scale developments**, where you can leverage your technical expertise, leadership, and problem-solving skills to make a real impact.

Site Engineer Responsibilities:

- Assist the Project Manager/Senior Engineer with day-to-day management of the site technical & engineering requirements (RFIs, Submittals, Shop Drawings, Design Team Workshops, etc.).
- Assist the Project Manager/Senior Engineer so that quality control measures on the site are implemented and are in line with the overall BCAR plan for the project.
- Understand the short-term programme ensuring that all requisite documents and information is available to enable the Project Team and Sub-contractors to complete the works in accordance with the programme.
- Support the Project Manager/Contracts Manager to ensure that works are completed as per programme, on budget to a high standard.
- Work with the Project Team to identify any information gaps, develop solutions and rectify in conjunction with the site and design team in a timely manner.
- Maintain an excellent relationship with the construction management team, subcontractors and supply chain.

Necessary Skills & Requirements:

- Third level qualification in Engineering or related discipline.
- Knowledge of construction techniques – competent in all aspects of set out, survey & level, with an understanding of temporary works co-ordination.
- Strong numeracy and record keeping skills, excellent organisational ability
- Understanding of project planning and programming
- Ability to make informed decisions & know when to escalate
- Computer literate and familiar with MS office, project, (or similar scheduling package)
