Site Engineer | Leinster | Top Construction Company

- One of Ireland's Top Construction Companies with significant annual turnover.
- Excellent career progression opportunities along with a generous package.
- Exposure to large, interesting and prestigious projects.

Oradeo Recruitment is presently seeking interest for an experienced **Site Engineer** ideally with solid main contractor / specialist subcontractor experience to join one of Ireland's Top Construction Companies permanently based in Dublin. As a **Site Engineer** you will gain exposure to prestigious projects across the Dublin area on large building/construction sites and initially will be involved in ensuring the delivery of package ranging in value from €5+ million respectively within the Residential housing industry.

Become a **Site Engineer** with a building contractor with an outstanding reputation in the market on large scale construction projects. This position would come with an excellent remuneration package and a clear path for career growth and development towards Senior Engineer, Project Management and beyond.

Site Engineer Responsibilities:

- The **Site Engineer** will be tasked with Setting out, levelling and surveying the site.
- Cradle to grave delivery of small works packages with all-encompassing roles and responsibilities
- Checking plans, drawings and quantities for accuracy of calculations.
- Ensuring that all materials used and work performed are as per specifications.
- Managing, monitoring and interpreting the contract design documents supplied by the client or architect
- Liaising with any consultants, subcontractors, supervisors, planners, quantity surveyors and the general workforce involved in the project
- Liaising with clients and their representatives (architects, engineers and surveyors), including attending regular meetings to keep them informed of progress.
- Planning the work and efficiently organizing the plant and site facilities in order to meet agreed deadlines.
- Overseeing quality control and health and safety matters on site.
- Resolving any unexpected technical difficulties and other problems that may arise.

Necessary skills and requirements:

- 3rd level qualification in Construction Management/Engineering
- Minimum of 2-3 years' experience in Building Projects with a main contractor acting as a **Site Engineer** within Ireland or the UK
- Strong setting out experience
- **Experience working within property development will be advantageous**
- Strong operational skills and an attention to detail
- Familiar with MS Office applications such as Word, PowerPoint, Excel and Outlook.
- Strong and effective communication and interpersonal skills.
- Analytical thinker with demonstrated problem solving skills
- Ability to work in a team or on own initiative
- Ability to perform multiple tasks at a high level of quality
- Ability to work well under pressure and within a strict deadline environment
- Enthusiastic and Hardworking

For more information about this role Site Engineer position or other Site Engineer / Setting Out Engineer opportunities, contact Criostoir Davey confidentially on +353 1 687 7188 or email Criostoir.Davey@Oradeo.com or apply in confidence.
