

Site Manager | Dublin City

Site Manager | Dublin City

- International market-leading construction organisation with a strong presence across Ireland and Europe
- Excellent package and long-term career development opportunities
- Residential development project located in Dublin City

About Oradeo

Oradeo is an international recruitment and project services consultancy specialising in the delivery of major construction and mission-critical projects across Europe. We partner with global blue-chip clients and tier-one contractors to provide expert staffing, management support, and project delivery solutions.

As part of our continued involvement in high-profile Irish construction programmes, we are seeking an experienced **Site Manager** for a major residential development in Dublin City.

Role Overview

The Site Manager will be responsible for the daily management, supervision, and coordination of site operations, ensuring the safe and high-quality delivery of all works. This is a key leadership role requiring strong experience in site management, excellent communication skills, and the ability to collaborate effectively with subcontractors, consultants, and the wider project team.

Key Responsibilities

Site Operations & Delivery

- Oversee day-to-day management of the site workforce and specialist subcontractors.
- Support the project team in monitoring progress against programme targets.
- Ensure all work is delivered to the highest standards of quality and compliance.

Health, Safety & Compliance

- Ensure consistent compliance with Health & Safety regulations and internal company policies.
- Promote a culture of safety excellence across the site.

Stakeholder & Supply Chain Coordination

- Work closely with subcontractors and suppliers to maintain strong working relationships.
- Contribute to a positive, collaborative site culture.

Candidate Requirements

Experience

- 7–10 years' experience in Site Management.
- Previous main contractor experience essential; experience on large-scale commercial or mixed-use developments is advantageous.

Qualifications & Competencies

- Third-level qualification in construction/engineering or a strong trades background with excellent technical knowledge.
 - Strong IT skills, including Microsoft software packages.
 - Excellent organisational, communication, and delegation skills.
 - Ability to work effectively as part of a wider project team.
-

Package

- Competitive salary
 - Company vehicle or travel allowance
 - Relocation support where applicable
 - Laptop and phone provided
 - Pension, life insurance, and income protection
 - Continuous Professional Development (CPD)
 - Access to lifestyle benefits such as Bike to Work, Employee Assistance Programme, and Sports & Social Club
-
